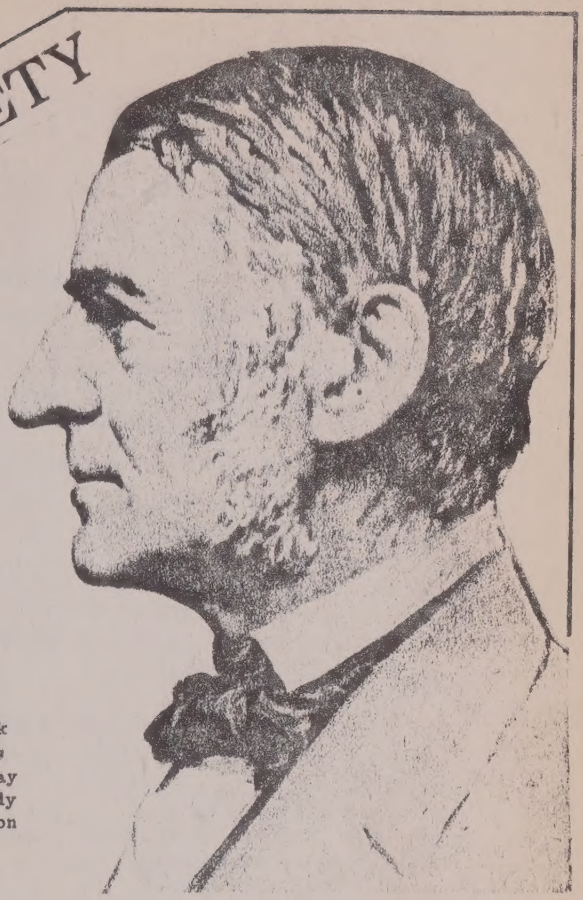
THE EMERSON SOCIETY QUARTERLY



Dear Family: This issue and the preceding one have been made possible by private subsidy, without which they would have been impossible. (Treasuries of small but growing periodicals like this one have to abandon all hope for publication miracles except as private gifts permit.) In this connection may we heartily thank the following for generously remitting above the cost of their annual membership to encourage our printing fund?

Raymond Adams	Theodore L. Bailey	William R. Brink
Warren H. Colson	Reginald L. Cook	Merrell R. Davis
John Olin Eidson	Charles E. Feinberg	Mrs. Leonard Gray
Benjamin Gronewold	Parkman D. Howe	Steele M. Kennedy
Alex. C. Kern	Mrs. James Macdonald	Helen B. Morrison
Robert Porter	Henry B. Rollins	Mildred Silver
Lewis P. Simpson	Floyd Stoval	Carl F. Strauch
Frank T. Thompson	Stephen Tudor	Fred B. Wahr
	Harry R. Warfel	

The "Save Walden Committee" and the E S Q Committee wish to thank the following for contributing to help us in the next phase of our battle. We have appealed our case to the highest tribunal whence we hope to receive encouragement.

Carl F. Strauch	Benjamin Keen	Earl Knies
Nicholas Rescher	Mrs. Raymond Smith	Edwin T. Bailey
Jack Perry	Philip Hughes	Paul Briger
John Stambaugh	W. Neal Haynie	James Turman
Nicholas L. Childs	Paul Devendittis	Croft Jennings
Peter B. Clark	Bradford Ketchum II	Peter Kemble
Frank B. Hubby	Thomas Musante	Frederick Pryor
John Stephenson	John Romig	Roy Price
Richard Brightman	Peter Reinthaler	Carl Giegler
Paul Mills	Charles Middleton	Richard Stenta
Robert K. Janes	Robert Wright	Richard Schnadig
Edward Seibert	Anthony Phillips	Bruce Stewart
Randel E. Ryan II	Michael J. Olejos	Wm. G. McKnight
John Rorke	Arthur Perrow, III	Joseph Humphreys
Spencer Smith	John Moran	George Crolick
Robert L. Brown	Charles S. Burger	

May Providence requite you generously!

The 1959 Annual Meeting of the Thoreau Society will be held on Saturday, July 11, in Concord at the First Church. Dean J. Lyndon Shanley of Northwestern University will deliver the Presidential address on "The Pleasures of Walden." To commemorate the centennial of Thoreau's John Brown essays, Truman Nelson, of Salem, Massachusetts, who is writing a book on Harpers Ferry, will speak on "Thoreau and John Brown." Luncheon will be served at a reasonable price, and you will have an opportunity to meet your friends, to hike to Walden, and to hear the latest reports on our activities in defense of the Pond.

Do not forget our eagerness to enrol new members in our society. May you have a joyful spring!

YOUR COMMITTEE.

CHRONOLOGY OF THOREAU'S HARVARD YEARS

By KENNETH WALTER CAMERON

The following article has been composed as a help to scholars who may be at work in the period of Thoreau's college life and as a factual background study for my forthcoming volume, Thoreau: The Harvard Years, on which I have been at work for many months. In it I shall hope to correct much misinformation about H. D. T. still current in biographical studies and point to new areas the exploration of which can add clarity to our picture of the boy and the young man. The following pages will set forth curricular facts and a day-by-day record of Henry's participation in classes and in the College chapel. With the record of his borrowing books from the Harvard College Library,[1] the record of his life in the debating fraternity (the Institute of 1770),[2] the record of his withdrawal of books from the Institute library,[3] the dated entries of his surviving undergraduate blotting books,[4] and the reading lists of his campus friends,[5] these new records will provide us with a background of unusual amplitude and significance. I shall not here demonstrate any of the interesting correlations which can be made or the rich inferences. My purpose is to help the eye to see the extant Harvard records, especially the two principal calendars—the Term Books and the Prayer Bills—and to hope that they will help other scholars as they are now assisting me. I am, as always, grateful to the Harvard University Archives, through Clifford K. Shipton, Esq., custodian, and Dr. Kimball C. Elkins, a specialist in Harvard's past, for permission to use and publish these materials.[6] I am hopeful that there are yet undiscovered resources that can provide us with exact information about the content of Thoreau's courses in the modern languages. The dearth of information concerning the authors studied and the books used in his Italian, French, German and Spanish courses has been my principal disappointment. If only Professor Bokum had somewhere recorded his assignments in German and had indicated how much of Goethe Thoreau read in the original before his graduation![7] Here I can only list the courses Thoreau actually pursued and the names of the instructors under whom he studied. I have demonstrated elsewhere[8] that he never studied Greek with Jones Very:

FRESHMAN YEAR

2nd Term (1833, 2 Dec.--1834, 16 Mar.)
Italian with Pietro Bachi.
3rd Term (1834, 16 Mar.--1834, 1 July)
Italian with Pietro Bachi.

SOPHOMORE YEAR

1st Term (1834, 1 Sept.--1834, 7 Dec.)
Italian with Pietro Bachi.
French with Francis Surault.
2nd Term (1834, 7 Dec.--1835, 14 March)
French with Francis Surault.

JUNIOR YEAR

1st Term (1835, 28 June--1835, 6 Dec.)
French with Francis Surault.
German with Hermann Bokum.
[T. was examined in French by the Overseers on Monday, Nov. 30, 1835.]
3rd Term (1836, 20 Mar.--1836, 3 July)
Italian with Pietro Bachi.

SENIOR YEAR

1st Term (1836, 3 July--1836, 4 Dec.)
German with Hermann Bokum.
Italian with Pietro Bachi.
2nd Term (1836, 4 Dec.--1837, Mar. 20)
German with Hermann Bokum.
Italian with Pietro Bachi.
Spanish with Francis Sales.
3rd Term (1837, 20 Mar.--1837, 2 July)
German with Hermann Bokum.
Spanish with Francis Sales.

I

REPORTS OF THE FACULTY AND ADMINISTRATION COVERING THOREAU'S FRESHMAN YEAR AT HARVARD:

(A) Report of the Latin Department, April 29, 1834. Reports to the Overseers, IV, folio 79:

The labor of instruction in this department during the present academic year has been divided between the two instructers in the following manner. The instruction of the Freshmen-Class [sic] in the odes of Horace, Latin Grammar, and writing Latin; and of the Junior-Class in Cicero de officiis, Juvenal, and writing Latin was committed to the undersigned. The instruction of the Freshmen in Livy, and of the Sophomores in Cicero de claris oratoribus, and in the satires and epistles of Horace, to the junior instructer [Henry S. McKean]*....

The Freshmen-Class are reading the odes of Horace; the section farthest advanced have proceeded to the 21st, that which advances more slowly, to the 9th ode of the third book....

Charles Beck Prof. Lat.

---

* For evidence that Thoreau was instructed by Henry S. McKean during his Freshman year, see Thoreau's Correspondence, ed. Harding and Bode, p. 141.

(B) Report of the Greek Department, April 28, 1834. Reports to the Overseers, IV, folio 81:

That in place of the Collectanea Graeca Majora, and a part of Homer's Iliad, the Greek course at present adopted consists of the following works viz, Xenophon's Anabasis, the orations of Aeschines and Demosthenes on the crown, three Tragedies of Sophocles viz, the Oedipus Tyrannus, Oedipus Coloneus, and Antigone, one Tragedy of Euripides, viz. Alcestis, and one half of the Iliad. This course is accompanied by weekly exercises in writing.

The Freshmen have been instructed by Mr. C. Dunkin whose report is subjoined....

C. C. Felton.

(C) Report of the Instructer in Greek in Relation to the Studies of the Freshman Class during the session 1833-1834. In Reports to the Overseers, IV, folios 83-84.

At the commencement of this Year the Freshman Class entered on the reading of the Anabasis of Xenophon, each of its four sections attending eleven recitations with the Instructer every other week. Early in the first term a majority of the class made application to enter on the advancing course of study proposed by the resolutions of the College Government in the last year. To carry this application into effect the sections of the Class were, about the middle of the term, re-arranged, each Division (as before constituted) being formed into an ordinary & an advancing section, of nearly equal numbers. The system of devoting alternate weeks to the separate study of the Greek & Latin was also discontinued, & each section has from that time recited daily through the first five days of every week.

At the same period the regular exercise of Greek Composition was introduced, each student being required to write one such exercise every fortnight. To this object the Saturday morning has been devoted, & the two divisions of the class have alternated weekly with the Latin Department. The time of the attendance of the Division on the Saturday has been occupied by the Instructer with the returning to the students of their last written exercises as corrected by him, the explaining as might be needed, the character of the alterations required, & the giving out the English material for the following exercise. The want of Lexicons adapted to translation into Greek has rendered it necessary to supply the Students liberally with the Greek words & forms of expression to be used. The exercises have consisted of from six to twelve sentences, & so connected with one another as to form a paragraph of prose narrative. A very considerable proportion of the exercises handed in have shown a highly respectable share of attention & knowledge, & some of them would have been deserving of high praise, even if presented by much older scholars....

Chr. Dunkin

(D) Report of the Department of Modern Languages, April 28, 1834. Reports to the Overseers, IV, folios 85-86.

...There are four regular teachers in the Department, each of whom is employed and paid

for one half of his time; and, in their instructions, two principles are adhered to, which should be borne in mind when considering results obtained.

The first principle is, that the distinction of College Classes is entirely disregarded, and that the sections for instruction are formed and changed according to the proficiency of the separate individuals composing them;--each person being carried forward as fast as he is able and willing to proceed. This principle, which, until lately, has been quite peculiar to this Department, has now been acted upon in it above eight years; and it is considered to be ascertained by this experience, that the amount of study and progress under it is, at least, twice as great, as it was under the old system, in which all who were in the same class were carried forward together.

The other principle is, that no student beginning a language is allowed to leave it, until, in proportion to his powers, he has learnt it. Some students, therefore, have been twice or three times as long employed on a language as others, but the degree of thoroughness obtained, though still unequal, is certainly vastly greater than was obtained under the old system of giving to all the same course and continuing them all in it the same length of time ....

Geo: Ticknor

(E) Report of the Department of Mathematics, April 29, 1834. Reports to the Overseers, IV, folios 93-94.

The instruction in this Department has been conducted for the present year by Mr Peirce with the assistance of Mr Nichols and Mr Frost. Mr Peirce has himself attended to the whole of the Freshmen and Sophomore Classes and to half the Seniors during the first term and to half the Juniors during the second term. The other half of the Seniors was instructed by Mr Nichols and that of the Juniors by Mr Frost....

The Freshman Class were instructed according to the same system which had been introduced with the preceding Class. But, nine weeks before the end of the term, when ten of the Class had finished Algebra, they were permitted to form an advanced class by themselves, and were instructed separately in the evening. They have studied a thorough course of Plane Trigonometry with its applications to Heights and Distances and Surveying and are now in about the middle of a course of Analytic Geometry of two dimensions arranged according to the plan of Biot. In a fortnight after this class was formed, sixteen more of the Class finished the Algebra, formed a second advanced Class, and have just completed Plane Trigonometry with its applications to Heights and Distances, Surveying & Navigation. A fortnight before the end of the term fourteen more....

The method, by which the advanced classes have been instructed, differs essentially from any which has been before adopted in the department, though quite common in the German schools. No text books are made use of, but the Instructor lectures to his pupils and, by performing all his calculations on the blackboard, they can easily take such notes as will enable them afterwards, to copy the lectures at full length into their manuscripts. Besides preparing these manuscripts which is itself a valuable exercise and which has in every instance so far been faithfully performed; either problems are proposed at the close of the lecture involving the principles of it, solutions of which are to be handed in at the next lecture or the students are required to fill up some steps of the demonstrations which have been omitted for the purpose of exercising their skill....

Benjamin Peirce

(F) Report of the Latin Department covering the third term of Thoreau's Freshman Year, dated Oct. 21, 1834. Reports to the Overseers, IV, folio 110.

The freshman class read and were examined in the Odes of Horace; the sections farthest advanced finished the book, those who proceeded more slowly reached nearly the end of the fourth book.... All the sections studied the larger part of the Syntax of Zumpt's Latin Grammar. Each section had four recitations every other week....

Charles Beck.

(G) Report of the Department of Mathematics covering the third term of Thoreau's first year, dated Oct. 21, 1834. Reports to the Overseers, IV, folio 118.

...The Freshman Class studied Geometry & Algebra in the first & second terms. Those who finished Algebra before the end of the second term were allowed to form three advanced sections who [sic] were instructed by means of lectures in Trigonometry & Analytic Geometry. With this Class a change in the method of instruction was effected by the introduction of examinations made by means of written exercises. Each student in the class was allowed to advance as rapidly as he chose without being retarded by the dullness or indolence of his classmates....

Benj.^{n} Peirce

(H) Report of the Committee of Overseers to examine students in modern languages on March 31, 1834. Reports to the Overseers, IV, folios 142-143.

... In Italian 13 [students]=1 Freshman [Thoreau?], 6 Juniors & 6 Seniors, all but the seniors volunteers. This section appeared very well indeed.

[A second examination was held on July 11, 1834, but no Freshman was then examined in Italian.]

II

REPORTS OF THE FACULTY AND ADMINISTRATION COVERING THOREAU'S SOPHOMORE YEAR AT HARVARD:

(A) Report of the Committee of the Overseers to nominate committees for 1835. Reports to the Overseers, IV, folio 147:

VII. Committee to examine the classes in Rhetoric, Grammar and Philosophy of Language. Revd. John Brazer, Ezra S. Gannett, Hon. Sidney Willard, Revd Ralph W. Emerson, Ellis G. Loving, Esquire. [Dated Feb. 5, 1835].

(B) Report of the Committee of the Board of Overseers to examine students in the Department of Moral and Intellectual Philosophy, Political Economy and Constitutional Law, Feb. 12, 1835. Reports to the Overseers, IV, folios 156-157:

The Committee conceive that justice requires of them, to speak with decided approbation of the manner in wh. the instruction appears to have been conducted by the tutor, Mr. Giles. He seems to have been very attentive & successful in presenting the questions with clearness to the minds of his pupils, & forming them to habits of careful judgment & research. At the same time, considering the variety & the great importance of the branches under his superintendance, the Committee will not forbear to repeat the wish wh. has been heretofore expressed, that as soon as circumstances permit, the chair of the Alford foundation may be filled....

The Committee specify, as one important improvement wh came under their notice, the practice of making written abstracts of Locke's Essay, wh. are exhibited by each student to the instructor, & returned with his remarks, & answers to inquiries....

For the Committee Wm Sullivan.

(C) Report of the Department of Rhetoric and Oratory, covering the first and second terms of 1834-1835, dated April 28, 1835.

I Exercises in Declamation.
The Seniors declaimed once a fortnight in Sections of Ten for each Exercise--the whole class attending.
The Juniors declaimed once a fortnight in Sections of Ten--before the whole Class.
The Sophomores declaimed every week--eight, each week, & none present but the performers & Instructer.

II Exercises in English Composition & Translation
Each Senior presented thirteen Themes for criticism.
Each Junior presented thirteen Themes.
Each Sophomore presented twelve Themes or Translations.

These Themes & Translations were examined by the Professor & returned to the student for correction; & were afterwards gone over again, with the student, at a stated Exercise.

III Public Lectures
I delivered Seventeen Lectures on Rhetoric, Criticism, & the different Kinds of Eloquence, to the Seniors, & examined them upon each.

IV Private Recitations.
Twice every week, the Sophomores recited in Lowth's Grammar, Whately's Rhetoric & Whately's Logic. The exercises in the Latter Work, are not yet finished. They attended in Divisions. One hour was given to each Division....
Edward T. Channing

(D) Report of the Latin Department, dated April 25, 1835. Reports to the Overseers, IV, folio 168.

The Sophomore- and Freshmen-Classes were divided, according to the principle introduced during the last year into the Freshmen-Class, into three sections each according to acquirements and proficiency....

The Sophomore-Class devoted three hours each week to reading. The most advanced section has read and reviewed Cicero de officiis, and finished the first perusal of the Satires and Epistles of Horace. The section proceeding most slowly has read and reviewed about two thirds of Cicero de officiis, and read once the Satires and first book of the Epistles of Horace. All the sections have every fortnight one exercise in writing Latin....
Charles Beck

(E) Report of the Greek Department, dated April 28, 1835. Reports to the Overseers, IV, folio 170.

The Sophomore and Junior Classes have been instructed by the subscriber.

The Sophomores have been divided, like the Freshmen, into three sections.

The first, or least advanced section, has read three Tragedies, in the following order, viz. The Alcestis of Euripides, and the Oedipus Tyrannus and Oedipus Coloneus of Sophocles.

The second section has read four tragedies, as follows viz the Antigone, Oedipus Tyrannus, Oedipus Coloneus of Sophocles and the Alcestis of Euripides.

The third, or most advanced section, has read the same four Tragedies as the second, and reviewed the Oedipus Tyrannus.

The three sections have had an exercise in Greek Composition every other week, alternating with the Latin....

C. C. Felton

(F) Report of the Department of Mathematics, April 28, 1835. Reports to the Overseers, IV, folio 178.

The instruction in this department has been conducted during the present year by Benjamin Peirce A.M. Professor, assisted by Barzillai Frost A.M. Proctor. Mr Peirce instructed the whole of the Freshmen and Sophomores and half of the Juniors and Seniors and Mr Frost instructed the other half of the Juniors and Seniors....

Benjamin Peirce

(G) Report of the Department of Rhetoric and Oratory for the third term. Dated Oct. 20, 1835. Reports to the Overseers, IV, folio 202.

The Sophomores declaimed privately before the Professor, in small sections, of four or five, every Monday & Wednesday.... The Sophomores recited twice a week from Whately's Logic, & were examined at the close of the Term by the Committee on Rhetoric, &c. [Emerson was on this Committee and may have examined Thoreau.]...Each Senior, Junior and Sophomore presents a Theme every fortnight, for inspection & correction, & attends an Exercise, at which his Theme is re-examined....

Edward T. Channing

(H) Report of the Latin Department, Oct. 20, 1835. Reports to the Overseers, IV, folio 206.

The Sophomore-Class devoted three hours each week to reading, and had, every fortnight, one exercise in Writing Latin. The most advanced section read and reviewed Cicero de officiis, the Epistles and Satires of Horace, and the Medea of Seneca; the second section read the above works of Cicero, Horace, and Seneca, but reviewed the two former only; the first section read and reviewed the larger part of Cicero de officiis, the Satires and the first book of the Epistles of Horace....

The undersigned cannot close this report without expressing his regret that Mr. McKean [Thoreau's Freshman teacher], the junior instructer in the Department, dissolved, at the expiration of the academic year, his official connection with the College after five years of faithful labor and very signal success.

Charles Beck

III

REPORTS OF THE FACULTY AND ADMINISTRATION COVERING THOREAU'S JUNIOR YEAR AT HARVARD:

(A) Report of the Department of Modern Languages. Reports &c of the Department, II (1829-1835). UA III.28.29

Cambridge Nov. 24. 1835,

Hon. F. C. Gray
Sir

An examination in the Modern Languages by the Committee of which you are chairman, having been appointed for Monday, Nov. 30, I transmit to you, according to the instructions of Professor Ticknor, the following statement.

The whole number of students in the department has been 236. Of these 103 have studied French, 43 Spanish, 54 German, and 36 Italian. The number of volunteers has been 86, and of regular students 150; and the following 34 have been directed to appear before your Committee, each having finished to the satisfaction of his teacher, in the period marked against his name the course prescribed to him.

I. In French at IX. oclock.

Juniors		
Allen		
Bacon		All regular students and taught by Mr. Surault in 4 terms--except Rice 2d, Tuckerman, and Williams 3d, who were taught by Mr. Sales in the same time.
Clarke		
Dall		
Hayward		
Holmes 1st		
Holmes 2d.		
Kimball		
Morison		
Rice		
Russell		
Thoreau	←	
Treat		
Tuckerman		
Williams 3d		
Wheeler.		

II. In Spanish at X.

Sophomore	Aspinwall		Studies another time
Seniors	Brewer		All regular students and taught by Mr. Sales in terms--except Aspinwall who has studied but one term having learned the
	Haskins	Jun.	
Sen	Lothrop		
	Rice		
	Ruggles		
	White		
	Williams 4	Jun.	

language before.

III. In Italian at XI.

Juniors	Hayward 1st	v	Volunteers or
	Holmes 1st	v	regular students
	Kimball	v	according to the
	Russell	v	marks set against
Seniors	Bartlett	r	their names--
	Cruft	r	taught by Dr
	Minot 2.	r	Bachi in 4 terms.
	Morris	r	
	Prince	v	
	Spelman	r	

Respectfully submitted
by C. C. Felton.

Nov. 30. The examination took place to day. Mr. Gray, Mr. Frothingham, Mr. Prescott, and Mr. Wigglesworth were present. Of the students there were absent, Clarke, with leave of the President, Holmes 2d sick, and Aspinwall, who continues Spanish another term. The classes appeared very well, with two or three individual exceptions.

(B) Committee appointed by the Overseers to examine students in Rhetoric and Philosophy during the year 1836: Rev. John Brazer, Rev. George Ripley, Rev. Ralph W. Emerson, William Minot, Esq., Rev. Jonathan M. Wainwright, Hon. Sydney Willard. [Appointed Feb. 4, 1836. See Reports to the Overseers, IV, folios 255-256.]

(C) Report of the Department of Rhetoric and Oratory covering the first and second terms of the present college year, May 3, 1836. Reports to the Overseers, IV, folio 265.

This Department is under the direction of Professor E. T. Channing assisted in Elocution by William H. Simmons A.M.

The classes instructed by them were--The Sophomore Class, 66 in number, the Junior, 46-- & the Senior, 40.

Mr Simmons gives instruction in Elocution to a Section (10 in number) of each of these classes every week, & also to the performers at Exhibition as soon as their parts are prepared.

Mr Channing gives instruction in composition to all the Seniors one week, & to all the Juniors the next, through the year; & to the Sophomores in Divisions, half the class every week ....

The Seniors & Juniors Declaim before him in Sections of ten each, the whole class attending....

He is required to hear the Sophomores recite twice a week, & to hear the Seniors & Juniors declaim once every week, & to have an exercise in composition with each of these classes every fortnight....

Thirteen exercises in composition were required of the Juniors & of 47 omitted Exercises, 32 are noted as subsequently performed....

During the first thirteen weeks of the first term, twenty students of the Senior & Junior classes attended a voluntary Exercise at Mr Channing's study, in three Sections. Each section had one evening each week to itself. The time was occupied in recitations from some Book on Rhetoric or Taste, in reading the early English Poets, & in conversation upon the subject or book appointed for the evening....

Edward T. Channing

[Query: Was Thoreau a volunteer for the evening sessions on the early English poets?]

(D) Report of the Department of Metaphysics, May 2, 1836. Reports to the Overseers, IV, folio 267.

During the first term of the current academical year, the Junior class, in two alphabetic divisions of 23 in number, recited six times a week in Paley's Moral & Political & Stewart's Mental Philosophy, making 93 lessons. ...The Senior & Junior classes read forensics in divisions, one division every friday.

During the above terms each member of the Junior class performed 7 written exercises-- each member of the senior class performed 48 written exercises, including forensics & analyses....

Joel Giles Instructer in Metaphysics

(E) Report of Henry Ware, May 3, 1836, in Reports to the Overseers, IV, folio 268.

That in the first Term of the collegiate year beginning August 28. 1835 he attended the Junior Class of undergraduates in an exercise in Paley and Butler three times a week till November and then twice a week thro' the remainder of the Term, and in the following Term till the 7th of February.-- The Class consisted of 46 members,--was heard in Divisions, one hour to each division, every student examined upon each exercise,--attention and performance satisfactory,--absences few, & the exercises thus omitted usually performed afterward....

Henry Ware

(F) Report of the Greek Department, May 3, 1836. Reports to the Overseers, IV, folios 275-278.

Since the beginning of the present Academic year, the Freshmen have been instructed by Mr. Francis Bowen, Tutor in Greek, whose report is herewith laid before the Committee.

The Sophomores and Juniors have been in-

structed by the undersigned....

Each individual of all the Greek Classes has prepared an exercise in Greek composition once a fortnight. These exercises have been made up of easy sentences, or connected narratives, varying according to the capacity of the students, and extending from a third of a page, to a whole page of manuscript Greek....

The Juniors have recited by sections, alternating with the Latin daily. Each student has recited three lessons, and written one exercise, every fortnight.

The first section have read four books and a half; the second, five books; and the third, nearly seven books of the Iliad....

C. C. Felton

(G) Report from the Department of Modern Languages, May 3, 1836. Reports to the Overseers, IV, folios 277-278.

Instruction in this Department has been given by four gentlemen, as follows viz. by Mr. Sales in French and Spanish, Mr. Bachi in Italian and Portuguese, Mr. Surault, in French, and Mr. Bokum in German....

C. C. Felton

(H) Report from the Department of Chemistry, May 2, 1836. Reports to the Overseers, IV, folio 283.

...On closing the Medical course, instruction was commenced to the Junior Class by lectures & recitations during the remainder of the second term viz 7 weeks, & has been continued to the present time....

J W Webster

(I) Report to the Overseers by the Committee appointed to examine in Chemistry. The Report is dated June 10, 1836. See Reports to the Overseers, IV, folio 291.

...they met on the ninth of June at the University, and attended the examination of the Junior Class.... the students gave good evidence...of a very commendable proficiency in the knowledge of Chemical phenomena.

The Committee could not but regret that a better text-book was not made use of, by the Class. It is true that the principal reliance for instruction is upon the lectures of the Professor rather than upon the Text-book. But it is no less true, that a frequent recurrence to the text book is indispensible [sic] both to fix the principles of the science in the mind, & to recal the facts to memory in their practical application....

E. Hale Jr
Augustus A. Gould
Charles T. Jackson
} Committee

(J) Report of the Department of Rhetoric and Oratory, Oct. 18, 1836. Reports to the Overseers, IV, folio 309-310.

I gave instruction to the three upper classes, having no Sections except those of ten each for declamations, & no divisions but of the Sophomores, who are divided alphabetically when they recite....

The Juniors declaimed once a week & presented Eighteen sets of Themes....

The time occupied in correcting Themes & translations was equal to six hours for each set. Some classes being larger than others, the time will of course vary.

A critical exercise with a whole class, upon the corrected compositions, takes nearly two hours.

The studies pursued under my direction were in speaking, in composition, & in Recitations in Rhetoric & Logic....

I omitted two Exercises of the Seniors, & one of the Juniors, in Declamation....

Edward T. Channing

(K) Report of the Instructor in Elocution, Oct., 1836. Reports to the Overseers, IV, folios 311-312.

That, during the last Academic year, he gave instruction to the Senior, Junior and Sophomore classes of undergraduates. Ten members of the Senior class declaimed every Friday morning, and ten of the Junior class every Saturday morning, before the Professor of Rhetoric [Edward T. Channing], and Mr Simmons. On a previous day of the week, each declaimer rehearsed his piece to Mr Simmons: the exercise commonly occupying a half hour. In addition, Mr S. has usually given two reading lessons, of an hour each, to the Senior declaiming section, and two to the Junior declaiming section, of every week. These lessons included a sort of familiar lecture. In the first term, Mr Simmons delivered two Introductory lectures on Elocution to the Senior and Junior classes, assembled together....

In all exercises conducted by him, the labor of the Instructor in Elocution has been, first of all, to draw the attention of his pupils to the importance of Distinct Articulation; and, as the best mode of forming the habit, to exercise them in the exact and forcible enunciation of separate words, syllables and elementary sounds.... In the next place, the Instructor has endeavoured to aid the students, so far as circumstances would allow, in developing the Power and Compass of their Voices, by explaining and exemplifying to them the difference between a colloquial and an oratorical volume of sound, and exercising them in forcible declamation.... Finally, it has been a great object with the Instructor, to enable the young gen-

tlemen to realise, that, in the delivery of a written composition, a Mental Effort is requisite, to reconceive each thought, at the time of its utterance, with all the freshness of its original production in the mind: in short, to put the thoughts and feelings in the posture, not of recitation, nor of soliloquy, but of earnest address--an actual communion of the Speaker's mind with those of his Audience.

In conclusion, the Instructor takes the liberty of intimating to the Committee...that Exercises in Elocution would be much more beneficial, in a large Hall, than they are or ever can be, while performed in a Dining Room under the College Chapel. In this low and narrow apartment, the feeblest tones are audible, if distinctly articulated. It neither requires nor permits forcible declamation. An energetic manner cannot be formed there. The entire power of the voice can never be developed there. A young man who has formed his habits of Elocution, in such a place, cannot fairly be expected to speak with audibility and sustained force, in a Hall twenty times as large, and before an assembly of a thousand people. From feeble organization, and coldness of temperament, many of the speakers at the last Commencement, may have been incapable of ever becoming eloquent; but it is believed that reasonable vocal exercise, in a spacious Hall, would have enabled them all to speak audibly--then, and for the future.... W^{m} H. Simmons.

(L) Report of Henry Ware, Oct. 18, 1836. Reports to the Overseers, IV, folio 313.

That thro' the first Term of the Collegiate year beginning in August 1835, and for six weeks of the second, he attended the Junior Class of undergraduates in an exercise in Paley's Evidences of Christianity, and in Butler's Analogy, --till November three times a week,--then twice a week till the end of the Term, and for six weeks of the following Term.--The Class was heard in divisions,--an hour to each division, and every student examined at each exercise....

H Ware

(M) Report of the Latin Department, Oct. 18, 1836. Reports to the Overseers, IV, folio 315.

The three sections of the Junior class read and reviewed in two weekly recitations, the first the whole, the others proportionate parts of Juvenal, and devoted one hour every fortnight to Latin composition and extemporaneous translation into Latin....

Charles Beck

(N) Report of the Department of Greek, Oct. 18, 1836. Reports to the Overseers, IV, folios 317-318.

The least advanced section of the Junior Class has read five books of Homers Iliad; the middle section, seven books; and the most advanced section, eight books.

Both the Sophomore and Junior classes have presented every fortnight exercises in Greek Composition....

The undersigned is unwilling to let this occasion pass by without bearing testimony to the able and faithful manner in which Mr. Bowen has discharged the duties of Greek Tutor, during the past Academical Term....

C. C. Felton

(O) Report of the Department of Chemistry, Oct. 17, 1836. Reports to the Overseers, IV, folio 323.

The instruction in Chemistry to the Junior Class commenced on the 16th of Feb^{y}, immediately on the termination of the Medical course in Boston, & was continued until the 4th of June. The whole class attending. A lecture was given every other day, & the class was examined upon every lecture & recitations were made from the text book. During the latter part of May, at the request of the class, a course of additional examinations was commenced for those who might wish to attend: the hour preceding morning prayer was selected, & nearly the whole class attended in divisions. At the termination of the course the usual examination was made by the Committee & was highly creditable to the class.... J W Webster

IV

REPORTS OF THE FACULTY AND ADMINISTRATION COVERING THOREAU'S SENIOR YEAR AT HARVARD:

(A) Report of the Department of Rhetoric and Oratory, May 2, 1837. Covers first and second terms. Reports to the Overseers, V, folios 29-30.

The Department is under the direction of Professor E. T. Channing, assisted in Elocution by Will^{m} H. Simmons, A.M.....

Instruction is given by M^{r} Channing, in composition, to all the Seniors, one week, to all the Juniors, the next, & to the sophomores in Divisions, half the class every week....

The Seniors & Juniors declaim before him every week, ten of each class forming a Section, & the whole class attending.

Eighteen Lectures on Rhetoric & Criticism were delivered before the Seniors. Each Sophomore presented eleven Themes or Translations, each Junior thirteen Themes, & each Senior thirteen, which were examined & returned for correction.... Edward T. Channing

(B) Report of Henry Ware, May 2, 1837. Reports to the Overseers, V, folio 31.

During the whole of the second Term he gave a course of Lectures three times a week, on the New Testament to the Senior Class, consisting of forty seven. Each Lecture and the examination upon it occupied about 50 minutes.

(C) Report of the Department of Moral and Intellectual Philosophy, May, 1837. Reports to the Overseers, V, folio 37.

During the same [autumn] term, the Senior class recited four times a week in Locke's Essay on the Understanding, being heard in two divisions, and one hour allotted to each. In the winter term, the Senior class, divided as before, recited six mornings in the week in Say's Political Economy. Beside the daily recitations, the instructer has attended, every Friday afternoon, an exercise of the two upper classes in reading Forensics. They read by divisions, each student being called upon once a month.

In the daily exercises, the attempt has been made to combine, as far as possible, the plan of recitations from a text book with familiar lectures, critical and explanatory, upon the author studied, upon others who have written on the same or similar subjects, and upon the present state of opinions in the science. Occasionally the whole class were called in together, and the hour given up to a lecture of the kind indicated. But from the want of time, this was not done at regular intervals, nor so often as was desirable....

Francis Bowen

(D) Report of the Department of Natural Philosophy, May 2, 1837. Reports to the Overseers, V, folio 45.

Since the commencement of the present Academic year, this department has been under the charge of the Tutor in Natural Philosophy. During the first term, the Senior Class read "Astronomy" of the Cambridge Course. The whole class was divided into three sections, each of which recited once a day through the whole term. In the same term, a course of Astronomical Lectures was delivered. Each lecture occupied one hour and the whole number given was fourteen. During the second term the Junior Class recited in three sections every day. While the first section were reading Peirce's Treatise on Sound, the second and third sections finished Hydrostatics and Hydrodynamics. Since then and during the same term the whole class have recited 10 lessons in Optics of the Cambridge Course....

Joseph Levering, Tutor

(E) Report of Thaddeus William Harris, Librarian, dated June 16, 1837. Reports to the Overseers, V, folio 51.

The instruction of the Senior Class in Natural History--(in which the whole work was gone through by the Class) accompanied by brief zoölogical lectures; and of a course of lectures on Botany.

There were 18 recitations by the Class, & 17 Zoölogical lectures, which, together, occupied the hour immediately before evening prayers of the first four secular days of the week--beginning Feb. 21st and ending May 15th 1837. The attendance on these is required by the laws.

The botanical lectures were 17 in number, occupying one hour each, before evening prayers, beginning May 16th and ending June 15th The attendance on these is voluntary--from one half to two thirds of the class being usually present.

(F) Report of the Department of Rhetoric and Oratory, Oct. 17, 1837. Reports to the Overseers, V, folios 68-69.

1. I gave instruction to the Sophomore, Junior & Senior classes. 2. The only Divisions of these classes for Exercises, were of Seniors & Juniors into sections of ten for Declamation, & of Sophomores into two Alphabetical Divisions for Recitation. I delivered Eighteen Lectures to the Seniors, examined Nineteen sets of Themes presented by them, & heard them declaim once a week....

Mr William H. Simmons, the Instructor in Elocution, & whose services are highly valued, was compelled by illness to retire from his duties in the second term, & has not yet been able to resume them.

His Brother, Mr George F. Simmons, supplied his place till Commencement, but was unable to do so, longer....

Edward T. Channing

(G) Report of the Department of Moral and Intellectual Philosophy, Oct., 1837. Reports to the Overseers, V, folio 70.

That, during the past year, he has continued to instruct the Junior and Senior classes in Moral and Intellectual Philosophy, Political Economy, and Constitutional Law. In the arrangement of the course and the general plan of instruction, he has followed the system, which has been in use for many years. Recitations from the text books have occupied most of the time, though familiar lectures have been interspersed, explanatory of the text, or of the different opinions maintained by other writers. Sometimes, though not often, these oral explanations have occupied the

whole hour allotted to the exercise. Both classes have written forensics regularly, each being divided for this purpose into two divisions, and every member of the class writing once in four weeks, the instructer having an exercise in forensics on the Friday afternoon of each week. The Junior class, in the first term, commenced the study of Stewarts "Elements of the Philosophy of Mind," reciting six lessons a week, one half of the class occupying the hour before breakfast, while the other half had the hour immediately succeeding the study bell in the forenoon. Having finished the book in about six weeks, they began the study of Paley's Moral Philosophy, completed it, and reviewed both works before the close of the term. During the last two terms, the Juniors have no exercise in this department, except in forensics. Far the larger portion of the class were punctual....

The Senior class in the first term commenced the study of Locke's "Essay on Human Understanding," attending the instructer in the afternoon of the first four days of the week, in two divisions, occupying the two hours immediately preceding evening prayers. They finished and reviewed the greater part of the book by the close of the term. In the second term, they studied Say's "Political Economy," occupying the same hours of the day, that the Juniors did in the term preceding. Six recitations a week, one hour being devoted to each half of the class, enabled them to finish and review the book by the commencement of the summer term. During the remainder of the year, they recited in Story's "Commentaries on the Constitution." In regard to punctuality...the class deserve much praise....

Francis Bowen

(H) Report of the Department of Natural Philosophy, Oct. 17, 1837. Reports to the Overseers, V, folio 72.

The Senior Class was divided into 3 divisions each of which recited every day in Farrar's Astronomy during the first Term. A course of lectures in Astronomy was delivered to this class--amounting to about 15, each lecture of an hour's length....

The Junior class was divided in 3 sections each of which recited every day during the second, and third Terms. The Books read through were Peirce's Treatise on Sound--the last half of Mechanics--Electricity and Magnetism & the Treatise on Optics, all belonging to the Cambridge Course of Natural Philosophy. During the third Term a course of lectures was delivered before the Junior class--amounting to about 30 lectures--each lecture of an hour's length....

Joseph Lovering

(I) Report of the Department of Modern Languages, Oct. 14, 1837. Reports to the Overseers, V, folio 84.

...The Report of the First Term is not here given, as I had not then entered upon my duties as Professor in this Department. During the Third Term a Course of Lectures was delivered to the Senior Class by the Professor on German and Northern Literature....

Henry W. Longfellow

(J) Report of the Committee of the Overseers to attend the semi-annual exhibitions etc. during 1837. Dated Jan. 10, 1838. Reports to the Overseers, V, folios 92-93.

The Committee deem it well worthy of consideration, whether means should not be found, to awaken an increased attention to some branches of natural Science particularly Geology. (The brilliant discoveries & generalizations of the last few years in this department, (As far as the Committee from their confessedly imperfect means of Observation are able to judge), have attracted less notice at the University, than is due to their importance & the notice they have received at other institutions abroad and at home.... Till an observatory is built amply furnished with instruments of the best description, and placed in charge with a skilful astronomer, not only must we continue in a discreditable dependence on foreign countries for the means of cultivating the sublimest of the sciences; but we must ever remain indebted to Europe for those observations, which enable our Naval & Commercial Marine to navigate the sea....

Edward Everett

(K) Report of the Committee of the Overseers for the examination of students in Moral and Intellectual Philosophy, etc., Feb. 8, 1838. Reports to the Overseers, V, folios 112-113.

On the subject of text-books the committee suggest, that the use of a book for instruction in Moral Philosophy containing such questionable doctrines & propositions upon important points, & such decidedly objectionable & even pernicious ones upon others, as Paley's treatise, is a defect in a system of education, which ought to be remedied, as soon as a suitable substitute can be found. It is true that the instructor may, by comments made at the daily examinations of the students, or in his public lectures, point out the errors in his text-book, with sufficient reasons for the exposure & correction of them; but admitting

[Continued on page 13.]

BROWN, SHATTUCK, AND COMPANY,

BOOKSELLERS TO THE UNIVERSITY,

Have constantly on hand a complete assortment of all Class-Books used in the various courses of study, and in the different departments of the University; and furnish them to the University, and to students connected with it, at the wholesale prices, as specified in the following list.

Adam's Roman Antiquities. (sheep)	$ 1.25
Bachi's Italian Grammar, (boards)	1.40
" Scelta di Prose "	1.40
" Teatro Scelto, (sheep)	1.06
" Portuguese Grammar,	.50
Butler's Analogy, (sheep)	.75
Barber's Elocutionist, (sheep)	.67
" Grammar of Elocution, (sheep)	.92
" Treatise on Gesture, (boards)	.50
Cartas Marruecas, (sheep)	.75
Cleveland's Greek Antiquities, (sheep)	.83
Folsom's Livy, (sheep)	.83
Farrar's Astronomy, (boards)	2.50
" Calculus, "	1.00
" Electricity, "	2.33

Tacitus, 2 vols. (fine paper)	1.00
Tytler's Element's of History, (sheep)	.62
Walker's Geometry, (sheep)	.67
Webster's Chemistry, (boards)	3.00
Whately's Rhetoric, (cloth)	.75
" Logic, "	.80
Xenophon's Anabasis,	1.00

Cushing's Practical Treatise on the Trustee Process, or Foreign Attachment.

The Annals of America, from its Discovery in 1492 to 1826. By Abiel Holmes, D. D.

Latin Classics used in the course of study in Harvard University. Those already published are, 1. Plautus — Captivi; 2. Cicero de Claris Oratoribus; 3. Cicero de Officiis. Published in 18mo volumes and sold separately.

Locke's Paraphrase and Notes on the Epistles of St. Paul.

A Statement of Reasons for not believing the Doctrines of Trinitarians, concerning the Nature of God, and Person of Christ. By Andrews Norton.

SUNDAY LIBRARY, edited by the Rev. Professor WARE, JR. Volumes already published —

Vol. I. The Life of the Saviour. By the Editor. *The Second Edition, revised and stereotyped, will soon be published.*

Vol. II. (vol. I. of the Lives of Philanthropists,) containing the Life of Howard.

Surault's New French Exercises, adapted to all French Grammars.

" Rowbotham's French Grammar. ☞ This is used as the Text-book in Harvard University.

Story's Commentaries on Bailments; also, Story's Commentaries on the Constitution of the United States, in 3 vols. and the same abridged in 1 vol.

Theological Common-place Book, prepared by the Rev. T. W. Coit.

Ware on the Formation of the Christian Character. Eighth Edition.

Last Thoughts on Important Subjects. By the Rev. Noah Worcester, D. D.

Whately's Elements of Rhetoric. Stereotype Edition.

☞ This book has already been adopted as a Text-book in Harvard University, Andover Theological Seminary, Dartmouth College, and several other literary institutions, and is considered decidedly superior to any other book on the subject extant.

Whately's Elements of Logic.

An Abridgment of Adam's Latin Grammar, designed for the Younger Classes. A new Edition, with Improvements.

Whitman's Friendly Letters to a Universalist, on Divine Rewards and Punishments.

Worcester's Epitome of History, and Charts.

The Iliad of Homer, with English Notes, and Flaxman's Illustrative Designs. Edited by Professor Felton.

Tucker's Light of Nature.

The Complete Works of Bishop Butler, William Paley, and Dugald Stewart.

☞ B. S. & Co. have in press, the following Works.

Stewart's Philosophy. A new edition.

French Fables, designed for the use of those who are studying the French Language; including a Key with a Literal Translation under the Text, and the Pronunciation over it. By F. M. J. Surault.

Ware's Sunday Library, Vol. III.

A Selection of Greek Tragedies, comprising the Prometheus of Æschylus, the Antigone of Sophocles, the Alcestis of Euripides, and others, with Notes in English, for the use of High Schools and Colleges, and for Private Reading. By THEODORE DWIGHT WOOLSEY, Professor of Greek in Yale College.

They have for sale

Rosenmüller, Scholia in Vet. Test 20 vols. 8vo.

Rosenmüller, Scholia in Nov. Test. 5 vols. 8vo.

The complete Works of Lightfoot in 13 vols. 8vo.

The complete Works of Jeremy Taylor, with a Life by Bishop Heber. 15 vols. 8vo. A beautiful Edition.

Oratores Attici et, quos sic vocant, Sophistæ; operâ et studio G. S. Dobson, A. M., R. S. L. S. 16 vols. 8vo. London. 1828.

[Harvard textbooks on sale during Thoreau's first year at the College, 1833-1834]

that he will always do this, which is perhaps presuming too much, still it is not an adequate remedy since it will not prevent the student from receiving his first impression from the text-book, & the first impression is apt to be deep & not easily effaced. The objectionable parts referred to, are distinctly & ably exposed in Mackintosh's Progress of Ethical Philosophy; & the committee suggest whether it would not be expedient to use parts of that work as a text-book, in connexion with Paley, until some suitable substitute for both can be had....

Willard Phillips

Below, I give an analysis of each term Thoreau spent at Harvard with hundreds of new facts. Additional details and some recent discoveries will appear in Thoreau: The Harvard Years.

Already in preparation is an article to be entitled, "Thoreau's Textbooks While At Harvard," offering resources of unusual interest. Publication is planned early in 1960.

I, II, III and IV in the following sections represent respectively the Freshman, Sophomore, Junior and Senior years. The Arabic numerals refer to the term.

I.1 [1833, 1 September——1833, 1 December] See below, pages 25-27.

Thoreau's rank in his class is undetermined because the Rank Scale of the first term is missing. Total points earned this term: 1215. His courses were:

Mathematics:	Geometry	with Benjamin Peirce
Greek:	Xenophon's Anabasis Greek composition Greek grammar Greek antiquities	with Christopher Dunkin
Latin:	Livy (Folsom's Selections)	with Henry S. McKean
	Horace, Odes Latin composition Zumpt's Latin Grammar Latin antiquities	with Charles Beck
History:	Tytler, Elements of History	[ ]

Thoreau was absent 5 times in mathematics, once in Greek, and once in history, but he made up his work. He was twice tardy in Greek.

His Chapel attendance was excellent. He was absent from Chapel morning and evening on October 6--the occasion being the hike to Concord--partly in stocking feet--to which John Thoreau referred in his letter to George Stearns of Oct. 18. (See E S Q, No. 9 (IV Quarter 1957), pp. 15-16.)

I.2 [1833, 2 December——1834, 16 March] See below, pages 28-31.

Thoreau ranked sixteenth in his class by the end of the second term, having accumulated 1414 points which, added to the 1215 of the preceding term, gave him a total of 2629. His courses were:

Mathematics:	Algebra	with Benjamin Peirce
History:	Tytler, Elements of History	[ ]
Greek:	Xenophon, Anabasis, continued Greek composition Greek grammar Greek antiquities	with Christopher Dunkin
Latin:	Livy (Folsom's Selections), continued	with Henry S. McKean
	Horace, Odes Latin composition Zumpt's Latin Grammar Latin antiquities	with Charles Beck
Italian:	[Thoreau began on Feb. 2 and con- continued only through March 16.]	with Pietro Bachi

According to the Term Book, he made a successful recitation in geometry before the examining committee of the Board of Overseers on Dec. 12, 1833. All 32 absences from classes during the term were excused. Chapel attendance: 16 absences--all excused--eleven of them occurring during one week, Feb. 24-28.

I.3 [1834, 16 March——1834, 1 July] See below, pages 32-34.

Thoreau's rank for the third term is not available because the term scale is missing. He accumulated 1409 points which, with the 2629 of the previous two terms, gave him a grand total of 4038 for the year. This entitled him to a share of the "exhibition money" voted by the Corporation to Freshmen on July 17, 1834. See the Corporation Records, VII, p. 364 (NA I.30) for the names of his classmates so honored:

Hale, Horatio Emmons	$30.00	Perry, Amos	25.00	
Hildreth, Samuel Tenney	30.00	Allen, William	20.00	
Wheeler, Charles Stearns	25.00	Barnes, Henry	25.00	
Phelps, Francis	25.00	Kimball, Benjamin	25.00	
Clarke, Manlius Stimson	25.00	Thomas, Charles	15.00	Total
Thoreau, David Henry	25.00	Wight, Daniel	25.00	$315.
Treat, Samuel	20.00			

Thoreau's courses were:

Mathematics:	Plane Trigonometry (with applications to heights, distances, surveying and navigation) Analytic Geometry	with Benjamin Peirce
Greek:	Orations of Demosthenes and Aeschines (De Coronâ) Greek composition Greek grammar Greek antiquities	with Christopher Dunkin
Latin:	Livy completed	with Henry S. McKean
	Horace, Odes, completed Latin composition Zumpt's Latin Grammar Latin antiquities	with Charles Beck
History:	Tytler, Elements of History, completed	[ ]
Italian:		with Pietro Bachi

Minimal absence from classes. Chapel attendance: 19 excused and 6 unexcused absences.

II.1 [1834, 1 September——1834, 7 December] See below, pages 35-36.

Thoreau ranked sixth in his class through a mathematical error!! Having earned 1568 points this term, which, added to the preceding 4038 should have given him a total of 5606, Thoreau was inadvertently handed "4638," making the total 6206!! His courses were:

Mathematics:	Topography	with Benjamin Peirce
Greek:	Sophocles, OEdipus Tyrannus, OEdipus Coloneus Greek composition Greek grammar Greek antiquities	with Cornelius C. Felton
Latin:	Cicero, De Officiis Latin composition	with Charles Beck
English:	Bi-weekly themes Lowth, Grammar Whately, Rhetoric Declamation every week	with Edward T. Channing

French:	[Modern Language Requirement]	with Francis Surault
Italian:	[Voluntary Study]	with Pietro Bachi

During the term he passed a satisfactory examination in Latin before the Committee of the Overseers. Incomplete class work and unexcused absences cost him 152 points, reducing what was 1720 to 1568 points for the term. Chapel attendance: 12 absences--all excused. The Prayer Bill indicates that in November and December, several of his classmates (including Perry 1st, Russell and Treat) temporarily left college to keep school.

II.2 [1834, 7 December——1835, 14 March] See below, pages 37-39.

The Rank Scale for this term places him seventh in his class. He earned 1538 points which, added to his earlier total of 6206, gave him a grand total of 7744. [The error in addition of the previous quarter was never detected!] His courses were:

Mathematics:	Differential and Integral Calculus	with Benjamin Peirce
Greek:	Sophocles, OEdipus Coloneus, continued, and the Antigone Greek composition Greek grammar Greek antiquities	with Cornelius C. Felton
Latin:	Cicero, De Officiis, continued Horace, Satires and Epistles Latin composition	with Charles Beck
English:	Bi-weekly themes Whately, Rhetoric Declamation every week	with Edward T. Channing
French	[Modern Language Requirement]	with Francis Surault

The 8 absences from courses cost his average 16 points. He had 35 excused and 3 unexcused absences from Chapel.

Notable during this second term is the fact that on Feb. 25, 1835, at 9 A.M. in Room 7 of University Hall, Thoreau and others of the Sophomore Class were examined on the first three parts of Whately's Rhetoric by Ralph Waldo Emerson and others--the Committee of the Board of Overseers. (See Josiah Quincy's form letter to Emerson of Feb. 18, 1835, and Reports to the Overseers above.)

II.3 [1835, 14 March——1835, 27 June] See below, pages 40-42.

The Rank Scale for the third term places Thoreau eleventh in his class, with a total of 9034 points, permitting him to take part in the Exhibition of July 13. For the Greek dialogue which he shared with Manlius Stimson Clarke, "Decius and Cato," see my "Thoreau's Early Compositions in the Ancient Languages," E S Q, No. 8 (III Quarter 1957), pp. 20-29.

On June 18, the Corporation included Thoreau among the Sophomores who received a share of the exhibition money. See College Records, VII, folio 395-396. (NA I.30)

Hale, Horatio Emmons	40.	Morison, Horace	35.	
Wheeler, Charles Stearns	35.	Phelps, Francis	25.	
Hildreth, Samuel Tenney	35.	Allen, William	25.	
Thoreau, David Henry	25.	Perry, Amos	25.	
Clarke, Manlius Stimson	25.	Wight, Daniel	20.	
Treat, Samuel	25.	Kimball, Benjamin Gage	15.	Total $330.

His courses were:

Mathematics:	Vol. I in a series known as "Cambridge Natural Philosophy." This was John Farrar's An Elementary Treatise on Mechanics [In Thoreau's library]	with Benjamin Peirce

Greek:	Euripides, Alcestis Review of earlier reading Greek composition Greek grammar and antiquities	with Cornelius C. Felton
Latin:	Seneca, Medea Horace, Epistles and Satires completed Latin composition	with Charles Beck
English:	Bi-weekly themes Whately's Logic Declamation every week	with Edward T. Channing
French:	[Modern Language Requirement]	with Francis Surault

Absences from classes minimal. Chapel attendance: 25 excused absences; 4 unexcused.

III.1 [1835, 28 June——1835, 6 December] See below, pages 43-45.

This term Thoreau ranked fourteenth in his class, earning 1322 points which, added to his previous 9034 gave him 10356. Ninety-five points were deducted for unexcused absences, lateness etc. His adjusted total for the term was 10,261. His courses were:

Greek:	Homer, Iliad (5 books) Greek composition	with Cornelius C. Felton
Latin:	Juvenal Latin composition Extemporaneous translation into Latin	with Charles Beck
Theology:	Paley, Evidences Butler, Analogy (first part)	with Henry Ware
Mental Philosophy:	Paley, Moral Philosophy Stewart, Elements of Moral Philosophy	with Joel Giles
English:	Bi-weekly themes	with Edward T. Channing
	Forensics	with Channing and Giles
French:		with Francis Surault
German:		with Hermann Bokum

On Dec. 2, 1835, he left for Canton, Massachusetts, to keep school under the direction of Orestes Brownson. See page 44.

Absences from classes: 13, of which 7 were excused; 6, unexcused. Chapel attendance: 22 absences: 21 excused; 1 unexcused.

III.2 [1835, Dec. 6——1836, 20 March] See below, pages 46-47.

Thoreau was absent from Harvard. See H. S. Canby, Thoreau, Boston, [1939], 57-62. The record shows that he sent back to Harvard during the week ending Dec. 12, 1835, an assignment in Moral or Intellectual Philosophy valued at 8 points, and, during the following week (ending Dec. 19, 1835), one English composition valued at 21 points.

These 29 points were all he earned during his term away, and they brought his total score from 10,261 to 10,290.

III.3 [1836, March 20——1836, 3 July] See below, pages 48-78.

Thoreau returned to Harvard for this third term, but left just before the end of

May--about May 21--because of illness. For work accomplished during the two months in residence he was allowed 222 points, bringing his total score to 10,292 + 222 = 10,514. Since, through an oversight, the addition was not made before the Term Scale was worked out (see page 48) Thoreau's second-term total was repeated as 10,290. (He lost two points through careless copying in the President's office!) The Chapel record shows only three cuts--all acquired in April. His courses were:

Greek:	Homer, Iliad, continued Greek composition	with Cornelius C. Felton
Latin:	Juvenal Latin composition Extemporaneous translation into Latin	with Charles Beck
Mathematics:	Volumes 2 and 3 of the series, "Cambridge Natural Philosophy." These were: John Farrar, An Experimental Treatise on Optics and John Farrar, Elements of Electricity, Magnetism and Electro-Magnetism. Both survived in Thoreau's library.	with Joseph Lovering
Chemistry:	[Though Chemistry was scheduled for most third-term Juniors, Thoreau was not registered for it possibly because of his illness. See page 73.]	with J. W. Webster
English:	Themes and Declamations	with Edward T. Channing
	Elocution	with William H. Simmons
	Forensics	? with Joel Giles
Italian:		with Pietro Bachi

Many of the weekly faculty reports for this term have survived and have been reproduced below. A report of the examining Overseers for May 18, 1836, is also extant, but Thoreau's absence from the college made it impossible for him to be tested.

On June 16, when "exhibition money" was awarded to the Juniors, Thoreau was not listed. See College Records, VII, folio 426:

Hale, Horatio Emmons	50.	Treat, Samuel	30.	
Wheeler, Charles S.	45.	Phelps, Francis	25.	
Hildreth, Samuel T.	45.	Perry, Amos	25.	
Clarke, Manlius S.	35.	Allen, Joseph Henry	25.	
Morison, Horace	35.	Wight, Daniel	25.	Total $340.

IV.1 [1836, 3 July—1836, 4 December] See below, pages 79-102.

Thoreau did not resume his work until September 12, as indicated both in the Term Book and on the Prayer Bill. Between that date and December 4, he earned 952 points which, added to his accumulation, gave him a total of 11,462 and placed him twenty-third in his class. The surviving rank scale indicates more faculty carelessness in the original computation of his score. His courses were:

Natural Philosophy	John Farrar, An Elementary Treatise on Astronomy (Survives in Thoreau's library) Lectures on Astronomy	with Joseph Lovering
Intellectual Philosophy	Locke, Human Understanding. "A written analysis required of the student, and a commentary of the instructer; exhibiting the opinions of other philosophers, on controverted questions."	with Francis Bowen
German:		with Hermann Bokum

Italian:		with Pietro Bachi
English:	Bi-weekly themes	with Edward T. Channing
	Forensics	? Channing and Giles
	Elocution	with William H. Simmons and George F. Simmons
Lectures on Rhetoric and Criticism:		with Edward T. Channing

Many of the faculty reports from this particular term have survived. Thoreau's absences this quarter were minimal: 12 from Chapel, of which 11 were excused; 10 from classes, of which 9 (perhaps 10) were excused.

IV.2 [1836, 4 December——1837, March 20] See below, pages 103-105.

During the second term, Thoreau earned 650 points, bringing his total score to 12,112. He was still twenty-third in his class. His courses were:

Intellectual Philosophy:	Say's Political Economy	with Francis Bowen
German:		with Hermann Bokum
Italian:		with Pietro Bachi
Spanish:		with Francis Sales
Lectures on Theology:	New Testament	with Henry Ware
English:	Bi-weekly themes	with Edward T. Channing
	Forensics	

Absences: Chapel 16: 12 excused; 4 unexcused. Classes 23: all apparently excused. I cannot, therefore, understand why 233 points were deducted from his total of 883 points earned.

IV.3 [1837, 20 March——1837, 2 July] See below, pages 106-108.

During the third term, Thoreau earned in his courses and by attendance at voluntary lectures and, possibly by making up back work, 1,877 + 348 + 60 points, making a grand total for the four years of 14,397 (see the Rank Scale) and qualifying him for a Commencement part. At graduation, he was nineteenth in his class. For the conference on "The Commercial Spirit of Modern Times"--shared with Henry Vose and Charles Wyatt Rice--see my Transcendentalists and Minerva, (3 vols.), Hartford, 1958, I, 231-235. His courses were:

Intellectual Philosophy:	Say, Political Economy finished Story, Commentaries on the Constitution of the United States	with Francis Bowen
Natural History:	William Smellie, The Philosophy of Natural History (ed. John Ware) (Thoreau had one edition in his library.)	? with T. W. Harris
English:	Bi-weekly themes and monthly forensics	with Edward T. Channing
German:		with Hermann Bokum
Spanish:		with Francis Sales
Lectures on German and Northern Literature:		Henry W. Longfellow
Lectures on Mineralogy:		with J. W. Webster
Lectures on Anatomy:		with John C. Warren
Lectures on Natural History (Zoology and Botany)		Thaddeus Wm. Harris

Absences: from Chapel, 38: 31 excused; 7 unexcused; from Classes, 14: 5 excused; 9 unexcused. Because of his unexcused absences, his accumulation of points for the term suffered a deduction of 86 = (7 x 2) + (9 x 8).

On June 15, 1837, possibly through Emerson's intercession with President Josiah Quincy, Thoreau received a small grant from the exhibition money allocated to Seniors. See College Records, VIII, folio 20:

Wheeler, Charles Stearns	60.	Saltonstall money
Hildreth, Samuel Tenney	50.	Alford money
Clarke, Manlius Stimson	40.	Hollister money
Morison, Horace	40.	Hollis scholar
Treat, Samuel	35.	
Wight, Daniel	30.	
Perry, Amos	25.	
Allen, Joseph Henry	25.	
Thoreau, David Henry	25.	$330.

Quincy's report to Emerson appears in Franklin B. Sanborn, Henry D. Thoreau, Boston, 1882, pp. 53-54:

Cambridge, 25th June, 1837.

My dear Sir,

Your view concerning Thoreau is entirely in consent with that which I entertain. His general conduct has been very satisfactory, and I was willing and desirous that whatever falling off there had been in his scholarship should be attributable to his sickness. He had, however, imbibed some notions concerning emulation and college rank which had a natural tendency to diminish his zeal, if not his exertions. His instructors were impressed with the conviction that he was indifferent, even to a degree that was faulty, and that they could not recommend him, consistent with the rule by which they are usually governed in relation to beneficiaries. I have always entertained a respect for and interest in him, and was willing to attribute any apparent neglect or indifference to his ill health rather than to wilfulness. I obtained from the instructors the authority to state all the facts to the Corporation, and submit the result to their discretion. This I did, and that body granted twenty-five dollars, which was within ten, or at most fifteen, dollars of any sum he would have received, had no objection been made. There is no doubt that, from some cause, an unfavorable opinion has been entertained, since his return after his sickness, of his disposition to exert himself. To what it has been owing may be doubtful. I appreciate very fully the goodness of his heart and the strictness of his moral principle; and have done as much for him as, under the circumstances, was possible.

Very respectfully, your humble servant,

Josiah Quincy.

Rev. R. W. Emerson.

The value of each exercise(*eight* being the highest mark in recitations, *twenty-four* in declamations and in Latin and Greek written exercises and *forty-eight* in themes and forensics,) will be entered in the right-hand column, under its day. Absence will be marked *a*, and tardiness *t*, in the left-hand column, each under its day; and if excused, an *e* will be placed over the *a* or *t*. Exercises made up after their week, also neglect of exercises, indecorum, and any circumstance which ought to have weight in the general estimate of merit and conduct, will be noticed in the column of Remarks. This report will be made to the President at the close of every week.

No mark will be given by any Instructor, except for exercises actually performed.

Thoreau is absent from Col

The value of each exercise(*eight* being the highest mark in recitations, *twenty-four* in declamations and in Latin and Greek written exercises and *forty-eight* in themes and forensics,) will be entered in the right-hand column, under its day. Absence will be marked *a*, and tardiness *t*, in the left-hand column, each under its day; and if excused, an *e* will be placed over the *a* or *t*. Exercises made up after their week, also neglect of exercises, indecorum, and any circumstance which ought to have weight in the general estimate of merit and conduct, will be noticed in the column of Remarks. This report will be made to the President at the close of every week.
No mark will be given by any Instructer, except for exercises actually performed.
